Hydrometallurgy 42 (1996) 447–448

hydrometallurgy

Contents Volume 42, 1996

New approach in the modelling of the extraction equilibrium of zinc with bis-(2-ethylhexyl) phosphoric acid
C.I. Sainz-Diaz, H. Klocker, R. Marr and H.-J. Bart 1
Iron(III) extraction by LIX 860 and its influence on copper(II) extraction from sulphuric solutions
J. Simpson, P. Navarro and F.J. Alguacil 13
Iron control in zinc plant residue leach solution
S.R. Swamkar, B.L. Gupta and R.D. Sekharan 21
Leaching of gold and silver from Miller Process dross through non-cyanide leachants
D.S.R. Murthy and P.M. Prasad 27
Sulphidization–cyanidation of jarosite species: Applicability to the gossan ores of Rio Tinto
L. Sánchez, M. Cruells and A. Roca 35
Development of temperature-tolerant strains of *Thiobacillus ferrooxidans* to improve bioleaching kinetics
J.M. Modak, K.A. Natarajan and S. Mukhopadhyay 51
Thermodynamics of Cu–H_2SO_4–Cl^-–H_2O and Cu–NH_4Cl–H_2O based on predominance-existence diagrams and Pourbaix-type diagrams
C. Nila and I. González 63
Extraction of nickel from ammoniacal solutions using LIX 87QN
P.V.R. Bhaskara Sarma and K.C. Nathsarma 83
Improved ionic mass transfer in an electrochemical cell in presence of turbulence promoters
T. Subbaiah, P. Venkateswarlu, R.P. Das and G.J.V.J. Raju 93
Application of the solution mining process to the Turkish trona deposit
G. Nasün-Saygili and H. Okutan 103
Technical Notes
Correlation of mass transfer coefficients for tellurium(IV) extraction with instantaneous reaction in a modified Lewis cell
M. Bandyopadhyay, S. Datta and S.K. Sanya 115
Removal of tin from metal-containing industrial dusts
M. Gudorf, Z. Lazarova and K. Schügerl 125
The recovery of rare earth oxides from a phosphoric acid by-product. Part 3. The separation of the middle and light rare earth fractions and the preparation of pure europium oxide
J.S. Preston, A.C. du Preez, P.M. Cole and M.H. Fox 131
The recovery of rare earth oxides from a phosphoric acid byproduct. Part 4. The preparation of magnet-grade neodymium oxide from the light rare earth fraction
J.S. Preston 151
Estimation of mineral-adhered biomass of *Thiobacillus ferrooxidans* by protein assay — some problems and remedies
G. Karan, K.A. Natarajan and J.M. Modak 169
Design of liquid–liquid extraction columns for the possible test system Zn/D2EHPA in n-dodecane
F. Veglio and M.J. Slater 177
Synergistic extraction of gold(I) cyanide with the primary amine Primene JMT and the phosphine oxide Cyanex 921
F.J. Alguacil and C. Caravaca 197

On the catalysis of ferrous sulphate oxidation in autoclaves by nitrates and nitrites
S.A. Baldwin and G. Van Weert 209
Kinetics of soda ash leaching of low-grade scheelite concentrates
J.P. Martins 221
Combined chemical and bacterial leaching of ultrafine ground chalcopyrite
P. Baláž, D. Kupka, Z. Bastl and M. Achimovičová 237
The extraction of mineral acids by the phosphine oxide Cyanex 923
F.J. Alguacil and F.A. López 245
Mechanisms of dissolution of iron oxides in aqueous oxalic acid solutions
D. Panias, M. Taxiarchou, I. Paspaliaris and A. Kontopoulos 257
Separation of liquid–liquid dispersions in a deep-layer gravity settler: Part I. Experimental study of the separation process
R. Padilla, M.C. Ruiz and W. Trujillo 267
Separation of liquid–liquid dispersions in a deep-layer gravity settler: Part II. Mathematical modeling of the settler
M.C. Ruiz and R. Padilla 281
The effect of seeding on the rate of precipitation of ammonium jarosite and sodium jarosite
J.E. Dutrizac 293
Extraction of phosphorus, arsenic and/or silica from sodium tungstate and molybdate solutions with primary amine and tributyl phosphate as solvents. I — Synergistic extraction and separation of phosphorus, arsenic and/or silica from tungstate and molybdate solutions
Y. Zhao and J. Chen 313
Extraction of phosphorus, arsenic and/or silica from sodium tungstate or molybdate solutions with primary amine and tributyl phosphate as solvents. II — Mechanism of extraction of phosphorus, arsenic and silica from tungstate and molybdate solutions
Y. Zhao and J. Chen 325
Review of the extractive metallurgy of scandium in China (1978–1991)
X. Shaoquan and L. Suqing 337
A contribution to hydrometallurgical processing of low-grade Egyptian dolomite deposits
A.M. Amer 345
Behaviour of cobalt during precipitation of manganese from the NH_3–$(NH_4)_2SO_4$–Mn–O_2 system
S. Mohanty, M.K. Ghosh, V. Chakravortty and S. Anand 357
Processing of ilmenite through salt–water vapour roasting and leaching
R.K. Biswas, M.F. Islam and M.A. Habib 367
Kinetics of pyrite dissolution by hydrogen peroxide in perchloric acid
M. Dimitrijevic, M.M. Antonijevic and Z. Jankovic 377
Anodic dissolution of Armco iron in 0.5 *M* H_2SO_4 in the presence of adsorbed chloride ions
M. Vuković 387
Kinetics of forward extraction of manganese(II) from acidic chloride medium by D2EHPA in kerosene using the single drop technique
R.K. Biswas, M.A. Hanif and M.F. Bari 399
Electrochemical oxidation of arsenopyrite in chloride solutions
H.K. Lin and Z.M. Zheng 411
The oxidative leaching of nickel matte with manganese-containing oxide ores
Chen Hsiaohong 425
Technical Note
Electrical conductivity of ammonium hydroxide aqueous solutions containing tungsten and molybdenum ions
A.A. Palant and G.I. Anufrieva 435

Book Reviews 441
Erratum to "Acid pressure leaching of nickel-containing chromite overburden in the presence of additives" [Hydrometallurgy 39 (1995) 117–128]
G.K. Das, S. Acharya, S. Anand and R.P. Das 443

Meeting Announcements 445
